

All Tablet. All BlackBerry.

The BlackBerry PlayBook. Everything you need from a tablet, everything you expect from the BlackBerry solution.

Communicate and collaborate effortlessly

Manage your personal and work email, plus your Twitter® feeds, LinkedIn® updates and more with the powerful unified inbox within the built-in messaging app. The new people-centric calendar provides updated information about the people who matter most. See their status updates in the contacts app. Hold face-to-face video chats between BlackBerry® PlayBook™ users with front and rear-facing HD cameras. And host video conferences right from your tablet with the free Adobe® Connect™ Mobile app from BlackBerry® App World™.

Transform your workplace

Pair the BlackBerry PlayBook tablet with a Bluetooth® keyboard and mouse to make almost any space a convenient work place. Close deals from a seat back tray table. Draft reports from a sidewalk café. Take Windows® desktops and apps to go with support for Citrix® Receiver™.¹ And change the way your work gets done.

Team up instantly

Use BlackBerry® Bridge™ to connect the BlackBerry PlayBook with a BlackBerry® smartphone² to start a BBM™ chat – so you can keep in touch with family and friends, co-workers and teams. Send and receive messages, pictures and more in real time – and know when your messages have been delivered and read. It's great for getting up-to-the-minute information from colleagues, or for sending and receiving pictures and other media for presentations directly from the tablet.

Ultra Powerful. Ultra Portable.
Ultra Productive.

Professional-grade tools

BlackBerry PlayBook is ready for business. Record important meeting details with Voice Notes. Create, edit and share documents from anywhere with Documents To Go® Premium. Print them as PDFs from a PC to your BlackBerry PlayBook tablet with Print To Go. And find a world of apps for the mobile professional – time tracking, business analysis, workflow management and more – at BlackBerry App World.

Performance powerhouse

The BlackBerry PlayBook tablet packs a powerful dual-core processor and 1GB of RAM. So apps load and run quickly and smoothly. And it's backed by BlackBerry battery efficiency that keeps up with you even on the busiest days.

Real multitasking

BlackBerry PlayBook delivers true multitasking that lets you work without interruption by running multiple apps *fully and in unison*. So you can download music, review presentations, surf the web and start video chats, all at the same time. Not just because you can, but because you need to.

Security and manageability
without sacrifice.

Trusted security

Whether for personal purposes, business or both, BlackBerry PlayBook is designed to protect information with confidence. It's the first tablet to achieve FIPS 140-2 certification, making it trusted by governments and other organizations where security is paramount.

Simple manageability with BlackBerry Mobile Fusion

BlackBerry PlayBook gives your business the security and manageability you expect from the BlackBerry solution. When activated with BlackBerry® Mobile Fusion, your BlackBerry PlayBook tablets can be managed and secured using familiar BlackBerry management controls. Set and enforce password requirements, lock and wipe devices, and install and remove apps remotely. Even optional apps can be cataloged and made available for download by users through the BlackBerry App World storefront.

BlackBerry Balance technology

When you activate a BlackBerry PlayBook tablet with BlackBerry Mobile Fusion, you get all the benefits of BlackBerry® Balance technology. It enables the personal use of BlackBerry PlayBook tablets that professionals want with the protection businesses need. So whether your organization deploys BlackBerry PlayBook tablets internally or allows employees to use their own, work apps and data are isolated and can be wiped separately to help ensure sensitive information stays secure.

BlackBerry PlayBook works

Be productive. Stay competitive. Wherever, whenever.
